EDUCATION

Western University

London, ON

Honours Specialization in Computer Science

Graduation Date: May 2028

- Accolades: Dean's Honour List (2024, 2025), Western Scholarship of Distinction, GPA: 3.7/4.0
- Relevant Coursework: Data Structures & Algorithms, Software Tools & Systems Programming

EXPERIENCE

E-Com Advanced Data Analyst Intern

May 2026 – Aug 2026

Cyberx GmbH

Munich, Germany

- **Owned 3 production ETL pipelines** in **Microsoft Fabric** (Python notebooks), ingesting warehouse logistics and **PayPal payment data** hourly from **SFTP and API sources** into a **~10M-row Lakehouse** using **Medallion architecture**; presented builds to management as part of the company-wide rollout blueprint.
- **Built AI data agents** in **Microsoft Fabric & Copilot Studio** that automated weekly executive reporting, drafting management emails directly from live Fabric data with a **human-in-the-loop approval** step.
- **Shipped an end-to-end Consumer Service dashboard**, writing **PostgreSQL** queries and delivering the **Power BI** report adopted across the customer service department.

Software Engineer

Jan 2026 – Present

Savify | savify.ca

London, ON

- Architected and shipped the marketing landing page and **authentication flows** (login/signup) in **Next.js + React**, integrated with the startup's production backend.

IT Intern

Jun 2025 – Jul 2025

MotiveMinds Pvt. Ltd.

Karnataka, India (Remote)

- Automated **5+** internal IT workflows using **MuleSoft Anypoint Studio**, replacing recurring manual processing tasks with scheduled end-to-end integrations.

PROJECTS

Janus – Token Compression Proxy for Coding Agents | Rust, Redis, Docker, tree-sitter

DevPost

- **Won Google Best Sustainability AI Hack** at **GenAI Genesis 2026** as a **solo competitor**, beating out team-based submissions
- Reduced LLM inference costs by **55%** over extended coding sessions by building local compression pipeline in **Rust**
- Eliminated token costs on repeated queries via a **semantic Redis cache** (384-dim vector embeddings), **serving instant responses from a local cache** instead of round-tripping to the LLM.

FindMyProf – EasyApply for Research | Gemini SDK, LangChain, MongoDB Atlas, FastAPI

DevPost

- Built a **RAG pipeline** using **LangChain + MongoDB Atlas Vector Search** to semantically index and retrieve professor profiles for targeted research applications.
- Automated personalized outreach generation via the **Gemini SDK**, cutting per-application turnaround from **30+ minutes to under 30 seconds**.

LEADERSHIP

Ignition Hacks V7 | UI/UX & Development Executive

Feb 2026 – Present

- Built the hackathon's **React** site and **Node.js** application portal supporting **1,200+ registered accounts** for a **500+ participant** event; developed the **admin dashboard** executives use to review and select applicants.

SKILLS

Languages & Frameworks: Java (Spring Boot), Python (Flask, FastAPI), C, JavaScript/TypeScript (React, Node, Next), Rust (Tokio, Axum), Go (Net/Http, Gin)

Developer Tools & Databases: Git, GitHub Actions, MySQL, PostgreSQL, MongoDB, Redis, Docker, Microsoft Fabric, Power BI, Power Automate, OAuth 2.0, REST APIs, WebSockets, Apache Spark (PySpark)

Spoken Languages: English, German (Goethe A2), Arabic (Beginner), Spanish (Beginner)
